Professional Summary

Motivated Computer Science Engineering student with strong skills in Java, MERN Stack, AWS Cloud, and DSA. AWS Certified Cloud Practitioner with hands-on experience building scalable full-stack applications, AI-powered developer tools, and cloud-deployed solutions. Passionate about software engineering, problem-solving, and creating innovative products.

Education

Karpagam College of Engineering B.E. Computer Science and Engineering CGPA: 8.79	Coimbatore 2023 – 2027
Sathya Saai Matric Higher Secondary School HSC (12th): 90% SSLC (10th): 100%	Cuddalore 2021 – 2023

Technical Skills

Languages:	Java,C,C++
Frontend:	HTML, CSS, React
Backend:	Node.js, Express.js, REST APIs, Microservices
Database:	MongoDB
Cloud & DevOps:	AWS (EC2, S3, IAM), CI/CD Basics
Concepts:	OOP, Data Structures & Algorithms, System Design Basics

Certifications

- AWS Certified Cloud Practitioner (CLF-C02) – AWS services & cloud architecture
- AWS Academy: Generative AI Foundations, Microservices & CI/CD
- Meta React Developer (Coursera) | IBM Node.js & Express
- HackerRank: Frontend Developer, Node.js, CSS

Projects

AI Code Quality Analyzer – Chrome Extension (LeetCode) *React.js / Node.js / AI APIs*

- Built an AI-powered Chrome Extension analyzing LeetCode solutions across multiple languages in real time.
- Implemented AI-based Code Quality Scoring for readability, maintainability, efficiency, and best practices.
- Built Complexity Analysis to estimate time/space complexity and deliver optimization recommendations.
- Developed Smart Test Case Analysis to identify edge cases; added AI Hints without revealing full solutions.
- Implemented Code Comment Generation, Variable Naming Suggestions, and Code Similarity Detection.
- Designed a scalable architecture supporting all LeetCode languages with fast API integration and analysis.

Online Marketplace for Crafts – Crezia *MERN Stack / AWS / REST APIs*

- Built a full-stack e-commerce platform connecting artisans and buyers through a seamless marketplace experience.
- Implemented secure authentication, product management, shopping cart, order tracking, and payment workflow.
- Developed a Customer Requests feature enabling users to post custom craft requirements and get seller responses.
- Built a Pre-Order System for customers to reserve handcrafted products before production and launch.
- Designed Become a Seller module for user seller registration, product/order management, and business growth.
- Optimized performance through modular backend with Node.js, Express.js, and MongoDB; responsive UI with React.js.

Social Fitness App *MERN Stack*

- Built a full-stack social fitness application using MongoDB, Express.js, React.js, and Node.js.
- Developed REST APIs for user authentication, activity tracking, and social interactions.
- Designed and managed MongoDB schemas for efficient data storage and retrieval.
- Built responsive and user-friendly frontend components using React.js.
- Implemented modular backend architecture using Node.js and Express.js for scalability.

Internships

MERN Stack Intern *Let's GameTech* June 2025 – July 2025

- Developed REST APIs, handled MongoDB operations, and built responsive frontend components with React.js.
- Assisted in deployment and AWS cloud configuration (EC2, S3).

Java Intern *InternPe* Sep 2024 – Oct 2024

- Implemented efficient algorithms and modular Java code for backend logic development.
- Integrated third-party APIs and optimized application performance using core Java concepts.

Achievements

- Achieved a 365-Day LeetCode Streak demonstrating exceptional consistency.
- AWS Certified Cloud Practitioner (CLF-C02) – validated cloud expertise.
- Built and deployed real-world AI, MERN Stack, and Cloud-based applications.
